OLIS-K

The building is a source of inspiration for designers, architects, interior designers, or investors in the area of LED lighting.

The facility is built for SENSON, which with KLUŠ - a design and implementation company known for its innovative LED lighting solutions. The cooperation is a long-term partnership based on a shared passion for design, which results in creating a place that will be something other than just a property on the map of the region.

Thanks to the presence of KLUŠ on the market, including through systematic participation in trade fairs, "LED Inspiration House" will be the most up-to-date technical innovation center. The most up-to-date technical innovation is supported by practice comes from the experience of other branches and active participation in the implementation of advanced projects. LED lighting is supported by searching and by using modern expertise in the areas of construction, stage design, and exhibition.
